

Welcome to **Clean Sheets Classic Scrapbooking**

Clean Sheets Classic Scrapbooking enables you create easy, elegant scrapbook pages with your cherished digital photos—FAST!

Maybe you need to create an album for a special occasion—such as a birthday tribute, a wedding album, or a vacation keepsake—or you want to finally “catch up and keep up” with your family’s snapshots. Using Adobe Photoshop Elements, Clean Sheets Quick Albums and your photos, you’ll create timeless pages to share online, print page-by-page for an ongoing scrapbook, or combine into a bound photobook as a gift. These pages are the most flexible, individualized and yet FASTEST way to meet a variety of memorykeeping needs.

How do you start finally unlocking your photos’ potential? It’s easy:

- * Install Adobe Photoshop Elements on your computer and watch the “World’s Simplest Video Tutorials” at www.nanscottdesignstudio.com/quickt看/tip2. The second tutorial has instructions for creating Quick Pages. The tutorial page also includes a free sample Quick Page to download and try.
- * Purchase a Clean Sheets Quick Page Album from the Boutique and begin creating using your photos. You’ll finish your album in no time!
- * Print your pages and/or share them online. We recommend PersnicketyPrints.com for your printing needs.

Every month, the Studio releases at least two new Clean Sheets Quick Page Albums. They’re designed using traditional magazine principles and classic backgrounds with minimal page accessories (just enough to add a little pizzazz!). The pages work together seamlessly to create any kind of scrapbook without clashing.

And if you want to add seasonal or topical embellishments, it’s easily done using the “simple” version of the album, which has no page embellishments (this version is free with every purchase). There are dozens of digital embellishments in the Studio and on other digital scrapbooking sites for you to add, if you want a more decorated page. Your creative possibilities are limitless!

Each eight-page Clean Sheets Classic Scrapbooking Quick Album is \$4.99. For \$9.98 you’ll purchase the complete 16-page set. And don’t forget that for a penny more per month (\$9.99), as a Pro Member you can get unlimited downloads from the Studio Boutique (one-year minimum membership). Page printing and photobook production is priced separately.
